

About the FKIT-003

AFSI provides the highest quality tool kits for the field technician. The FKIT-003 is designed to the specifications of NAVSEA Drawing 7085185. AFSI has enhanced this product with additional tools not found in competitors kits, saving our customers money while ensuring it contains all of the tools and consumables necessary to assemble qualified M28876 (MT) heavy duty 4, 8 and 31 channel connectors as well as M83522/16 ST and the EIA/TIA 604-3 SC connectors.

This kit is designed for the installer that wants all the tools on the job in one kit. AFSI has assembled this kit with our customers needs in mind first, so all of the tools are included necessary to assemble the Mil Qualified ST, SC and M28876 connectors, regardless of the manufacturer. This product is available off the shelf at AFSI authorized distributors.

Packaged with the AIT installer in mind, the kit comes packaged in a rugged case perfect for shipping or as checked baggage for the quick trip to a job site. The detachable wheel assembly makes this kit easy to take on and off the job site or through the airport.

FKIT003 (NAVSEA DWG 6872811) Termination Kit.

How to Order

For more information on how to order or to obtain a price quote on our AFSI FKIT-003 products, please call us at 800.472.4225. For international calls, please dial 214.547.2400 or email us at info@fibersystems.com.

About Amphenol Fiber Systems International

Amphenol Fiber Systems International (AFSI) designs, manufactures, markets and supports reliable and innovative fiber optic interconnect solutions that withstand the harsh environments of military, oil & gas, mining and broadcast applications. After more than a decade in business, AFSI continues to uphold its position as a global leader in fiber optic interconnect components and systems such as termini, M28876, MIL-ST, TFOCA and the TFOCA-II® connector, which AFSI developed and patented.

Altogether, AFSI has delivered millions of fiber optic connectors in more than 22 countries. Whenever there is a need for superior cost-effective fiber optic systems and products that will stand up to demanding operating environments, you can rely on AFSI for engineering know-how, top-quality products and expert technical support.
